This video highlights key events from 2009 – and how the United Nations and the international community took action.

## **Climate Change**

**"Copenhagen Accord"** (advance unedited version)

[http://unfccc.int/files/meetings/cop\\_15/application/pdf/cop15\\_cph\\_auv.pdf](http://unfccc.int/files/meetings/cop_15/application/pdf/cop15_cph_auv.pdf)

### **Case for Climate Neutrality: Case studies on moving towards a low carbon economy (UNEP)**

[http://www.unep.org/pdf/CN-Net\\_case\\_studies.pdf](http://www.unep.org/pdf/CN-Net_case_studies.pdf)

The publication draws upon the experiences of nearly 200 participants of the Climate Neutral Network (CN Net), 10 case studies led by the UNEP, that are moving towards low-carbon economies and societies.

### **Population Dynamics and Climate Change (UNFPA / IIED)**

[http://www.unfpa.org/webdav/site/global/shared/documents/publications/2009/pop\\_dynamics\\_climate\\_change.pdf](http://www.unfpa.org/webdav/site/global/shared/documents/publications/2009/pop_dynamics_climate_change.pdf)

The United Nations Development Fund for Women (UNIFEM) has issued a report on population dynamics and climate change. The report broadens and deepens understanding of a wide range of population-climate change linkages. Incorporating population dynamics into research, policymaking and advocacy around climate change is critical for understanding the trajectory of global greenhouse gas emissions, for developing and implementing adaptation plans and thus for global and national efforts to curtail this threat.

## **Economic & Social Development**

### **Afghanistan Opium Survey 2009 (UNODC)**

[http://www.unodc.org/documents/crop-monitoring/Afghanistan/Afgh-opiumsurvey2009\\_web.pdf](http://www.unodc.org/documents/crop-monitoring/Afghanistan/Afgh-opiumsurvey2009_web.pdf)

The potential gross export value of Afghanistan's opiates is down 18 per cent, from US\$ 3.4 billion in 2008 to US\$ 2.8 billion in 2009. The decline can be attributed to less cultivation, lower production, lower prices and relatively higher GDP.

### **DESA Capacity Development Office – new website**

<http://www.un.org/esa/cdo/index.html>

The Capacity Development Office has launched a new website to inform about the role and approach of the UN Department of Economic and Social Affairs (DESA) to capacity development and how the office supports the USG and divisions of DESA in the formulation and implementation of the Department's capacity development approach and promotes coherence and integrated delivery of the Department's operational activities.

### **Progress of the World's Women 2008/2009: Who Answers to Women? Gender and Accountability (UNIFEM)**

*English, French, Spanish & Portuguese:* <http://www.unifem.org/progress/2008/>

This new report - released by the United Nations Development Fund for Women (UNIFEM) - reveals that much stronger accountability mechanisms for tracking progress on gender equality are needed in order to meet national and international commitments to women's rights. Accountability to women begins with increasing the number of women in decision-making positions, but it cannot stop there.

### **State of the World's Indigenous People**

<http://www.un.org/esa/socdev/unpfii/en/sowip.html>

The United Nations has launched its first publication on the State of the World's Indigenous People. The report notes that the world's 370 million indigenous peoples suffer from disproportionately, often exponentially, higher rates of poverty, health problems, crime and human rights abuses; stressing that self-determination and land rights are vital for their survival. Startling figures contained in report include:

- In the United States, a Native American is 600 times more likely to contract tuberculosis and 62 per cent more likely to commit suicide than the general population.
- In Australia, an indigenous child can expect to die 20 years earlier than his non-native compatriot. The life expectancy gap is also 20 years in Nepal, while in Guatemala it is 13 years and in New Zealand it is 11.
- In parts of Ecuador, indigenous people have 30 times greater risk of throat cancer than the national average.
- Worldwide, more than 50 per cent of indigenous adults suffer from Type 2 diabetes – a number predicted to rise.

### **United Nations-Business Partnership Gateway**

<http://business.un.org>

This new gateway will allow companies willing to contribute to the United Nations to browse through a catalogue of humanitarian needs (including relief-for-Haiti appeals) and partnership opportunities, or simply to submit ideas for collaboration. Based on shared interests, the site flags potential matches to be connected directly. At the same time, business.un.org offers United Nations agencies interested in private-sector support the opportunity to identify and describe needs and preferences, covering nearly all operations of the Organization, from humanitarian relief to poverty reduction and HIV/AIDS prevention.
