Black Sea Grain Initiative Joint Coordination Centre

An “unprecedented agreement” on the resumption of Ukrainian grain exports via the Black Sea amid the ongoing war is “a beacon of hope” in a world that desperately needs it, UN Secretary-General António Guterres said at the signing ceremony on 27 July in Istanbul, Türkiye. The UN plan, which also paves the way for Russian food and fertilizer to reach global markets, will help to stabilize spiraling food prices worldwide and stave off famine, affecting millions. The initiative specifically allows for significant volumes of commercial food exports from three key Ukrainian ports in the Black Sea – Odessa, Chornomorsk, Yuzhny. The Secretary-General also announced the establishment of a Joint Coordination Centre to monitor implementation. It will be hosted in Istanbul and will include representatives from Ukraine, Russia and Türkiye.

Since the start of the war in Ukraine, UN Human Rights Monitoring Mission in Ukraine (HRMMU) has documented serious violations of international humanitarian and human rights law. Matilda Bogner, who heads the Mission, understands the challenges of documenting abuses during conflicts. She is a lawyer with 16 years of experience with UN Human Rights, much of it monitoring violations in conflict and post-
conflict situations. Back from a recent monitoring visit of 14 towns in Kyiv and Chernihiv regions that were occupied by Russian armed forces, Bogner answers questions about the kinds of abuses observed and if these actions constitute war crimes.
